

We are excited to bring you the third edition of the Let Me Tell You Project Newsletter. This edition covers the latest developments, including updates from our recent meeting and the planning of our Methodological Guide.

### **Recent Meeting Highlights**

Our recent meeting which took place in Greece on the 19th of June 2024 was highly productive and focused on several key areas of the project. The main takeaways are:

**Discussion on the Methodological Guide:** We outlined the objectives and characteristics of the Methodological Guide, which will serve as a crucial tool for implementing the project across different regions.

**Content Validation:** Partners reviewed and validated the proposed Index for the Methodological Guide after a brief discussion.

### **Technological Support:**

Our efforts to establish a robust technological support framework are well underway:

**YouTube Channel:** The channel hosting our videos is live, with all videos uploaded and subtitled in both local languages and English. You can watch them at: [www.youtube.com](http://www.youtube.com)

**QR Codes:** QR codes have been generated and placed at the video recording locations to facilitate easy access.

**Website:** Visit our website for comprehensive project information and updates at [www.letem.eu](http://www.letem.eu)

## Methodological Guide

The development of the Methodological Guide is a cornerstone of our project and is currently in progress. It is designed to provide stakeholders with a clear and comprehensive framework for implementation. This guide will serve as an essential resource to ensure the consistent and effective application of our project's methodologies across different regions.

## Join the Journey

We invite you to embark on this exciting journey with us. Together, we can make a difference by empowering seniors and revitalizing our rural areas while preserving and celebrating our European heritage. Visit our website to stay tuned with the project development:
